International Journal of Information Technology & Decision Making (IT&DM)

NEW
Journal
Announcement

Aims and Scope

International Journal of Information Technology and Decision Making (IT&DM) is to provide a global forum for exchanging the research findings and case studies which bridge the latest information technology and various decision-making techniques. It promotes how the information technology improves decision techniques as well as how the development of decision-making tools affects the information technology era. The journal is peer-reviewed and publishes both high-quality academic (theoretical or empirical) and practical papers in the broad ranges of information technology related topics including, but not limited to the following:

Artificial Intelligence and Decision Making
Bio-informatics and Medical Decision Making
Cluster Computing and Performance
Data Mining and Web Mining
Data Warehouse and Applications
Database Performance Evaluation
Decision Making and Distributed Systems
Decision Making and Electronic Transaction and Payment
Decision Making of Internet Companies
Decision Making on Information Security
Decision Models for Electronic Commerce
Decision Models for Internet Based on Companies
Decision Support Systems
Decision Technologies in Information System Design
Digital Library Designs
Economic Decisions and Information Systems
Enterprise Computing and Evaluation
Fuzzy Logic and Internet
Group Decision Making and Software
Habitual Domain and Information Technology
Human Computer Interaction
Information Ethics and Legal Evaluations
Information Overload
Information Policy Making
Information Retrieval Systems

Information Technology and Organizational Behavior
Intelligent Agents Technologies
Intelligent and Fuzzy Information Processing
Internet Service and Training
Knowledge Representation Models
Making Decision through Internet
Mobile Computing and Performance
Multimedia and Decision Making
Multiple Criteria Decision Making in Information Technology
Network and Decision Making
Neural Networks and Performance
Online Business and Decision Making
Optimization and Information Technology
Organizational Information Systems
Pattern Recognition Models
Performance of Parallel Computing
Reasoning under Uncertainty
Social Decisions on Internet
Software Performance and Evaluation
Telecommunication Systems and Evaluation
Visualization and Decision Making
Web based Language Development
Web Search and Decision Making
Website Design and Development
Wireless Technology and Performance

Guidelines for Contributors

1. Hardcopies of manuscripts in triplicate with at least one original set of figures (photographs) and an electronic version (i.e. by e-mail or on a floppy disk) should be submitted to the Editor-in-Chief.
2. The front page of the manuscripts should have the title of the paper, and the names, affiliations, and e-mail addresses of all authors. An abstract (no more than 150 words) and a list of keywords (no more than six) should also be enclosed.
3. Authors may recommend three persons as reviewers for their manuscripts when they submit the manuscripts.
4. Submission of a manuscript shows a clear understanding that the manuscript is not under consideration for publication with other journals or publications.
5. Depending on the nature and content of the manuscript, either the Editor-in-Chief will send the manuscript to an appropriate member of the Advisory Board or Editorial Board who will then send the manuscript to at least two competent reviewers, or the Editor-in-Chief will ask two appropriate members of the Advisory Board and/or Editorial Board to review. Based on the recommendations by the members of Advisory Board or Editorial Board, the Editor-in-Chief will make final decision on acceptance, rejection, and revision of the manuscript.
6. Once a paper is accepted, the author has to prepare a camera-ready manuscript according to the instructions provided by World Scientific Publishing Co.. The production manager of World Scientific Publishing Co. will work with the author for proofreading before publication.
7. The author is assumed to have transferred copyright of the accepted paper over to World Scientific Publishing Co.. All papers will be acknowledged and refereed.
8. There will be no page charge for the journal. Fifty free reprints will be given to the first author of each accepted paper. Purchase orders for additional reprints can be made on order forms that will be sent to authors.

Call for Papers

IT & DM warmly invites quality papers from all of you around the world who are committed to the research and practice in information technology and decision making.

The Advisory Board and Editorial Board of IT & DM consist of the internationally well-known scholars who demonstrate the interests in information technology and decision making interface from universities and companies in 18 countries and regions.
