One team is focusing on increasing security at the nation’s airports; the other team will examine security on board aircraft. They are collecting, evaluating, and prioritizing ideas that will help to develop a new national strategy for aviation security.

The public response to Tell FAA has been tremendous—over 25,000 emails, faxes, letters, and phone calls in the first two weeks. At a time of such national tragedy, the expressions of support, genuine desire to help, and influx of ideas is truly inspiring. We thank you.

4000 Israeli Employees in WTC Absent the Day of the Attack
Manar TV — Sept 17, 2001

With the announcement of the attacks at the World Trade Center in New York, the international media, particularly the Israeli one, hurried to take advantage of the incident and started mourning 4000 Israelis who work at the two towers.

Then suddenly, no one ever mentioned anything about those Israelis and later it became clear that they remarkably did not show up in their jobs the day the incident took place.

No one talked about any Israeli being killed or wounded in the attacks. Arab diplomatic sources revealed to the Jordanian al-Watan newspaper that those Israelis remained absent that day based on hints from the Israeli General Security Apparatus, the Shabak, the fact which evoked unannounced suspicions on American officials who wanted to know how the Israeli government learned about the incident before it occurred, and the reasons why it refrained from informing the U.S authorities of the information it had.

Suspensions had increased further after Israeli newspaper Yadiot Ahranot revealed that the Shabak prevented Israeli premier Ariel Sharon from traveling to New York and particularly to the city's eastern coast to participate in a festival organized by the Zionist organizations in support of the "Israel". Aharon Bernie, the commentator at the newspaper, brought up the issue and came up with a negative conclusion, saying no answer.

He then asked about the clue behind the Shabaks position in preventing Sharnons participation, and again without giving an answer. Bernie added that Sharon, who was delighted for having his speech on top of the festival agenda, asked the head of the organization to mediate and convince the Shabak to change its position, but his attempts were in vein. The next day after Sharnons secretary officially announced that Sharon would not participate the incident took place.

For its part, the Israeli Haaretz newspaper revealed that the FBI arrested five Israelis four hours after the attack on the Twin Towers while filming the smoking skyline from the roof of their companies building. The FBI had arrested the five for puzzling behavior. They are said to have been caught videotaping the disaster in what was termed as cries of joy and mockery.

Jerusalem — The Israeli newspaper Maariv on Monday published a picture of the American space shuttle Columbia apparently showing two cracks on its left wing.

Subject: Stay away from Malls on 10/31/01

I am sending this email to everyone that I have on my email list and I hope that you all pass it along because it is urgent and is not a joke.

Five minutes ago sitting here in my office at work one of my employees came in and said she had something important to tell me. She told me about her friend that lives right here in Baltimore with us — I won’t share names. She told me that her friend that works in a hospital down here was dating a Muslim that was from Afghanistan. Suddenly he broke up with her in August and told her they couldn’t be together anymore due to some certain circumstances. He wrote her a letter and made her promise him that she would not fly any planes on September 11th and that she wouldn’t go to any malls on October 31st.

Now we all see what happened on the 11th of September. At first I was wondering if this is true or is this girl just coming

The picture was taken 11 days before the shuttle broke up on its way back to Earth on Saturday, killing all seven crew members.

The photograph was extracted from footage taken by a camera onboard the shuttle during a live satellite video conference between Israeli Prime Minister Ariel Sharon and Colonel Ilan Ramon, the first Israeli to travel to space.

During the 15-minute conversation with Sharon and other Israeli officials, Ramon offered to share his view of Earth from the shuttle.

'It would not have been able to do anything to save the crew'

The video caught part of the shuttle’s left wing, showing two "long" cracks, according to the newspaper.

The fissures could have been the cause of the technical problems experienced by the shuttle which led to its breakup over Texas, 16 minutes before it was due to land, the newspaper stated.

in here pulling my leg because I'm new to Baltimore and she thinks that I will fall for anything. After she left I decided to email everyone because JUST IN CASE THIS IS REAL I want all of my family and friends to be safe.

Her friend has been to the local Baltimore City police department and also to the FBI and they can not put a warrant out for her exboyfriend because no one can find him. They say they can not make this information public because they do not know if it's a joke or not.

Now is not the time to play. I advise all of you that get this email to be mindful that if this is not real God is. And the safest place in the whole wide world is in the will of God. With the reporting of anthrax in Florida and now coming up here near Virginia, things are getting a bit too close for me. This girl lives right here in Baltimore and her boyfriend lived here too. It is so crazy how you don't know who your enemy is. If you don't know who you can trust—know that you can trust in the Lord. I don't know what malls are being targeted or what is going to happen at the malls. But we all know that since the parents get worried about walking down the street to trick or treat with their children they do it in the mall. So on Halloween the malls will be packed with children. This girl is trying to put this message out there before the 13st comes since the FBI and the police will not help her. I asked if she thought her ex-boyfriend would come after her for telling everyone, and apparently she doesn't care — and she feels like me—better to be safe than sorry!!

I figured that I would put this email out there to be on the safe side. All that know me knows that I don't fall for anything, and I don't pass on chain letters or keep any of that foolishness going through my email. So if you believe it let people know. I am pretty sure this won't be the only email that you get as this girl continues to get the word out in any way possible. The only other reason why I am sending it out is because of the person who told me. If she told me a friend of a friend of a friend told her this it wouldn't be so easy for me to believe. I miss you all back home and I wish I could come up to see you guys in New

An anonymous internet electronic-mail (e-mail) message has been widely circulated pertaining to an Arab male who warned his wife not to fly on September 11, 2001 and not to go to any shopping mall on October 31, 2001. The e-mail further states that the Arab male disappeared prior to the September 11, 2001 attacks.

The FBI has conducted an inquiry into the source of this e-mail and determined that the alleged threat is not credible.

Subject: Shakira

This week the singer Shakira appeared on MTV in front of a live audience and talked to fans who called the studio.

When an Israeli fan was put on the air, the singer refused to speak to her saying she’d “rather have PIGS listening to her music than Israelis!”

I think it is a disgrace that a person like her is given a platform to express her incredibly outrageous views and that a network as big and as influential as MTV did not condemn her expression. This is a singer who is rated no.1 in the world and in Israel with her smash hit “whenever, wherever”. We can not turn a blind eye to these sayings anymore!

I ask you all, please send this e-mail to all your mailing lists to help spread the word on this terrible saying and to boycott the singer’s CDs.51

Liora Yisrael-Rabin, chair of the Jewish National Fund's executive committee, said the foundation is not backing away from its work in East Jerusalem.

It is most likely done to entice Arab customers. I am sure, that map without Israel makes Arabs happy, very happy.

It is a very dangerous precedent — it looks like an indication that Arab calls for boycott of Israel start bearing fruits. Many Israelis today called for boycott of all Fuji products — film, cameras, batteries etc (see readers’ responses in today’s Yediot Aharonot).

Lucky — there are alternatives: film — Kodak, Agfa, cameras — Nikon, Olympus, Samsung, Canon etc. [...] Also important to note — Subaru is Fuji. It somewhat narrows down selection of cars, but I still won’t be able not to take it into consideration when the time comes.
