Dear: Head of School,

Student of your school, who is presenting this form, wishes to study academic studies in the Open University.

Academic studies in the Open University are based primarily on self-study and require demonstrated academic ability, meaning self-reliance and high motivation.

These studies will be in addition to their studies at the BHS and are not intended to affect their achievements at the BHS, in preparing for and passing the General Examinations.

Experience at the BHS is one of the criteria for admission to academic studies for high school students at the Open University.

We thank you in advance for filling out the form and your cooperation.

Signature: __________________________

Principal of the School

---

Name of student: __________________________

Student number: __________________________
